We Choose to do Healthcare Differently –
to make a *genuine* connection between healthcare and humanity.

Living By Our Choices

- ✦ **We Choose to Be Real.** When You're Real, Connections Happen. We believe genuine connections with genuine people are the key to health. ✦

- ✦ **We Choose Positivity.** Positive People Create Positive Results. We believe attitude is a choice; and optimism, compassion and caring create an environment that fosters well-being. ✦

- ✦ **We Choose Teamwork.** Teamwork Solves Problems. We believe exceptional results are created through the strength and power of collaboration. ✦

- ✦ **We Choose Inclusivity.** Everyone is significant. We believe our patients and staff flourish when they experience a strong sense of belonging and purpose. ✦

- ✦ **We Choose Accountability.** What you do (or don't do) counts. We believe when everyone does their jobs to the best of their ability, our team, our organization, and our patients thrive. ✦

- ✦ **We Choose Simplicity.** Healthcare doesn't have to be complicated. We believe it is our job to make your time with us as easy and painless as possible. ✦

- ✦ **We Choose to Make Health Care Personal.** When it's personal, it matters. We believe everyone is a partner, not a patient. ✦
